

SEA BEAM 1185 Multibeam for India

Paradip Port Trust (PPT) of India has recently bought an ELAC multibeam SEA BEAM 1185 with related sensors and software suites. PPT is responsible for safe navigation in the Port of Paradip, India's second largest port, situated on the eastern coast. The system offers high-resolution bathymetry and sidescan data, which will be processed with PDS 2000 software.
