

Seamap New Appointments

Rich Schiffman has been appointed President of Seamap, Inc. in Houston, Texas. Having previously worked in senior management positions for a number of companies, including Sercel, Inc. and JDR Cable Systems, Schiffman has over thirty years experience in the seismic and survey industries. He is tasked with further developing Seamap's sales and support in the Americas. Craig Douglas has been promoted to Vice-President Technology at Seamap Pte Ltd in Singapore. Douglas, who was formerly with Western Geco, has for the past two and a half years been leading the development of the Seamap Passive Acoustic Monitoring System.
