

# Secured Call-Off Contract for ROV Services

MMT has signed a call-off Contract with Shell in Europe for ROV survey services. The call-off contract covers a survey programme with various types of surveys and MMT are especially pleased for Shells interest in MMT's new SROV "Surveyor Interceptor" ROV.

According to Stefan Eliasson, CEO at MMT, the company started ten years ago with the preparations to become a preferred supplier of ROV survey services to the Oil and Gas industry and has since then implemented a strong focus on R&D, safe operations, high quality procedures and the best possible working environment.

The time period for this contract is 2015-2018 plus 2x1 year options.
