

SeeByte Appoints John Stout

John Stout is Seebyte's new offshore business manager. John will be responsible for SeeByte's product and service offering to the offshore industry worldwide.

John's career has been at the forefront of innovation, delivering software solutions to customers in the oil and gas and petrochemical industries globally. From his early days in Intergaph (UK) Ltd delivering CAD solutions to his more recent spell with Bentley Systems (UK) helping to provide GIS solutions, John has been able to help his customers realise greater value and benefit from using the right software at the right time.

Both SeeTrack Offshore, the most advanced Remotely Operated Vehicle (ROV) Dynamic Positioning (DP) available for retrofitting to standard ROV systems and AutoTracker, a solution that enables Autonomous Underwater Vehicles (AUVs) to detect and track pipelines, will fall under his direct responsibility.
