

Side-Scan Sonar Seminar

L-3 Klein Associates announces a Side-Scan Sonar Operations and Maintenance Training Seminar from 9 October to 11 October 2007. The three-day seminar will be conducted at L-3 Klein's Facility in Salem (NH, USA). The training will include two days of classroom instruction and 1 day of on the water training.

This seminar is geared to the operator, as well as to the manager, who wants a better understanding of Side Scan Sonar techniques. The course is open to any user of side scan sonar regardless of brand, experience, or occupation. Topics covered will include Basic Sonar Principles; Types of Side Scan Sonar; Sonar Design; Basics of Underwater Acoustics; Interpretation of Side Scan Sonar. Records: Target Detection; Field Operations; Specialty Applications; Troubleshooting; Maintenance.

The instructor for the course will be Garry Kozak. For the past 27 years, Garry has been employed by L-3 Klein Associates as a sales engineer. He is a recognised expert in undersea search operations and travels the world providing consulting and training expertise to Navies and companies who have a critical underwater search need.
