

Steve Poulter New UXO Manager at Fugro

Fugro Engineering Services, FES, has appointed Steve Poulter to head their UXO Clearance Department in Wallingford to investigate UXO around ports, shipping channels and on land. Prior to joining FES, Mr Poulter spent 4 years with Zetica (Geo-Services International (UK) Limited) as their business development manager.

Steve Poulter has joined FES to manage the expansion of FES's UXO service to the construction industry in the UK and Europe. This "one stop shop" service includes risk assessment; surface geophysical techniques; deep insitu geophysical investigation and UXO drilling; and the management of UXO disposal.
