

Success for First Offshore Job

Ocean Installer, Norway, has successfully completed survey and intervention work at the Balder field, as contracted by ExxonMobil Exploration & Production Norway. The work was performed in May 2012, on schedule and in line with Ocean Installer's quality and HSE standards and requirements. This job was the first project to be executed from Normand Clipper under the Ocean Installer charter, as well as Ocean Installer's first offshore job in the Norwegian sector of the North Sea.

The conducted work encompassed inspection and maintenance of the subsea control system at the Balder field, with Ocean Installer making use of the long-term chartered vessel *Normand Clipper*.

The Balder field is located in blocks 25/10 and 25/11 in the Norwegian sector of the North Sea, approx. 190km west of Stavanger, Norway, at a water depth of 125m.
