

THSUK Meeting: Use Many

The Hydrographic Society UK is organising a seminar day on 27th October 2009 on Maritime Spatial Data Infrastructure: 'Measure Once, Use Many'. Keynote speaker during this event, to be held in Bradfield College at Reading, will be National Hydrographer Rear Admiral Ian Moncrieff.

Key themes that will be addressed are data collection, maritime spatial data infrastructure, and a wide range of surveying aspects.

The seminar will start at 09.00 and last until 17.30.
