

# Two New Offices for Blue Ocean Monitoring

Blue Ocean Monitoring, headquartered in Australia, had expanded its offices from Perth and Singapore and had now opened offices in the United Kingdom and the USA. Blue Ocean Monitoring will be basing its Slocum gliders and other platforms in each of the new regions and relocate other gliders from its global fleet as local requirements dictate.

The United Kingdom office in Coleraine, Northern Ireland, is headed by Keith Wallace who has been appointed general manager – Europe & the Middle East. Keith is an accomplished metocean scientist, is a leader in his field and is well regarded throughout the region. The UK office is established.

The USA office in Houston, TX, is headed by Chris Carter who has been appointed vice president – Americas. Chris Carter has a strong technical sales solutions focus with autonomous marine robotic equipment.
