

Underwater Intervention 2012 Call for Papers

The Underwater Intervention Technical Program Committee is now accepting presentation abstracts for the 2013 conference programme. The main body of abstracts should be between 150 and 300 words and a photo and brief biography suitable for publication are appreciated. Deadline for abstract submission is 10 August 2012. Underwater Intervention is to take place from 15 to 17 October 2013 in New Orleans

Accepted authors will be highlighted in press releases, posted on the Underwater Intervention Website and showcased in our conference guide (both printed and electronic).

The Technical Programme Committee for UI 2013 is varied and chaired by [Drew Trent](#), Oceaneering International. Conference program topics are commercial diving, manned submersibles, work class ROVs, instruments and sensors, marine education / academia

decommissioning, small and micro ROVs, ocean exploration and research technology and deepwater field development.

Programme scheduling will begin as presentations are approved and accepted. Advance programme information will be advertised beginning 15 October 2012. Deadline for final papers/presentations is 3 December 2012. Papers submitted after this date will not be included in the Conference Guide or posted to the website.
