

# Wim van Wegen New Content Manager of 'Hydro International'

Time for a change! As of the first week of December 2017, Wim van Wegen has become the new content manager of *Hydro International*, taking over the baton from Joost Boers. Joost is now responsible for a different publication within Geomares:

[Products4Engineers.nl](http://Products4Engineers.nl).

Wim may already be familiar to you as he was editorial manager for *GIM International* and *Hydro International* from February 2010 before focusing on *GIM International* from mid-2013 onwards.

Joost has been working for *Hydro International* since June 2006. He also was involved in the hydrographic community by serving on the council of the Hydrographic Society

Benelux (HSB) from 2008 to 2014 and being involved with the organisation of the Hydro12 conference in Rotterdam.

Wim van Wegen can be contacted with news, papers, videos and other content matters by email: [wim.van.wegen@geomares.nl](mailto:wim.van.wegen@geomares.nl).
