

# World Maritime Technology Conference 2006

The Institute of Marine Engineering and Technology (IMarEST) will host the second World Maritime Technology Conference (WMTc) in London in Spring 2006 in partnership with 23 of the world's leading maritime associations. With its theme "maritime innovation" delivering global solutions™ WMTc 2006 is set to give a wake-up call on the maritime challenges facing the world.

Promoting integrated solutions to industry-wide issues while assessing the impact on global economies now and in the future, WMTc 2006 (The Queen Elizabeth II Conference Centre, London, 6-10 March 2006) will draw in leading representatives across the full range of marine disciplines for a week of technical presentations, ideas exchange, networking and business promotion, culminating in the combined Conference and 103rd IMarEST Annual Dinner on 10 March 2006.
