

YSI Inc. Market Manager

Rob Ellison has joined YSI Inc. as Global Market/Business Development manager for environmental monitoring products and systems. Mr Ellison becomes an interface between environmental scientists and YSI. He will also work with key customers and distributors worldwide to develop continuous monitoring systems for water resources. Mr Ellison comes to YSI with eight years of experience at Turner Designs, Inc., an environmental instrumentation company specialising in fluorescence instrumentation. He holds a Masters degree in Biological Oceanography from Old Dominion University.
